

ALIF RAHMAN

Senior Software Engineer || Full-Stack Developer

+880 1300155542 alif.rahman.c@gmail.com [LinkedIn/AlifSrSE](https://www.linkedin.com/in/AlifSrSE) [Github/AlifSrSE](https://github.com/AlifSrSE) [Alif Rahman](#)

Versatile and results-driven Team Lead with 6+ years of experience in full-stack engineering and applied AI. Proven track record in delivering production-grade fintech platforms and AI-powered systems across UAE, Singapore, and Bangladesh. Skilled in building scalable applications, architecting APIs, and leading cross-functional teams to solve complex problems and drive measurable business outcomes.

EDUCATION

Bachelor of Science (BSc)

Computer Science & Engineering | BRAC University
2018-2022

- Thesis: Football Offside Tracker (Computer Vision, ML, DL, Image Processing)

KEY SKILLS

Languages & Frameworks

- TypeScript, JavaScript, Python, PHP, React, NestJS, TypeORM, Next.js, Node.js, Flask, FastAPI, Laravel, React Native, Playwright, Zustand, CraftJS.

Databases & Tools

- MongoDB, PostgreSQL, MySQL, REST APIs, TailwindCSS, Bootstrap, Git, Docker, Postman, Jira, Figma, Redis, BullMQ, AWS S3, Swagger, Bull Dashboard.

AI/ML

- OCR (Tesseract, EasyOCR), Computer Vision (OpenCV, YOLO, MediaPipe), TensorFlow, Scikit-learn, Applied NLP

Architectural Patterns

- Distributed Systems, Background Job Processing, Real-time WebSockets, Microservices logic.

WORK EXPERIENCE

Daniyal Technologies Limited

11/2025 - PRESENT

Remote || USA

Senior Software Engineer

Tech Stack: NestJS, TypeScript, Node.js, PostgreSQL, TypeORM, Redis, BullMQ, AWS S3, Docker, React, Zustand, Playwright.

- **Project Leadership:** Owning full architectural and development responsibility for three core enterprise modules: **Appointment System, Operation Hub, and Support Center.**
- **Distributed Systems:** Engineered high-performance background processing using **BullMQ** and **Redis** for reliable asynchronous tasks and scheduled jobs.
- **Scalable Backend Design:** Architected secure **RESTful APIs** with **NestJS**, incorporating Passport **JWT**, Throttler rate limiting, and automated Swagger documentation.
- **Real-time Communication:** Developed live data synchronization and dashboard updates via **WebSockets**, with automated **SendGrid** and **Twilio** notification triggers.
- **Infrastructure & DevOps:** Orchestrated **Docker** containerization and **AWS S3** cloud storage to ensure environment parity and scalable asset management.
- **Quality & AI:** Implemented **Jest/Playwright** testing suites and integrated **Langchain** for AI-driven ticket classification and automated support workflows.

Druto Fintech Limited

01/2025 - PRESENT

UAE || Singapore || Bangladesh

Team Lead - AI Development

Tech Stack: Python, Flask, Django, MongoDB, TensorFlow, PyTorch, ScikitLearn

- Led the end-to-end development of a **Credit Scoring System** that improved loan approval accuracy by 20% and reduced manual review time by 30%.
- Built and deployed a **Psychometric Chatbot** that reduced manual risk interviews by 40% and accelerated loan approvals by 25%.
- Designed and deployed a **Loan Red Flag Analysis system** that automatically detects fraudulent loan applications, cutting fraud detection time from hours to seconds.
- Developed and integrated a **Social Scoring System** to analyze social data for creditworthiness, enhancing the risk assessment model.

ACHIEVEMENTS

- Promoted to Team Lead – AI Development within 6 months at Druto Fintech Limited.
- Delivered Britto lending platform, handling millions in transactions across multiple regions.
- Led AI modules now deployed across UAE and Bangladesh operations.

COURSES

Harvard University

- [CS50-Artificial Intelligence with Python.](#)

CERTIFICATES

- Walmart – [Advanced Software Engineering](#)
- GE Aerospace – [Explore Digital Technology](#)
- Citi ICG – [Technology Software Development](#)

LANGUAGE

- English – Full Professional Proficiency
- Bangla – Full Professional Proficiency

Senior Software Engineer

Tech Stack: Python, Flask, Django, MongoDB, TensorFlow, PyTorch, Scikit-Learn

- Led delivery of the **Britto lending platform**, now deployed across 3 countries, reducing loan processing time by 35% and handling 30k+ customers.
- Delivered core modules (CRUD, user/account, loan & savings) for a digital lending platform.
- Directed deployments, CI/CD pipelines, and Git workflows ensuring smooth production rollouts.

RedOrange Media & Communications

01/2024 – 11/2024

Netherlands || Bangladesh

Full Stack Web Developer

Tech Stack: Python, PHP, React, React Native, Wordpress, MySQL

- **Project Lead** for multiple web and mobile solutions across media and communications.
- Built custom WordPress themes and plugins, integrating **REST APIs** and optimizing MySQL queries for high performance.
- Delivered scalable Laravel-based full-stack applications, ensuring code quality, performance, and maintainability across distributed teams
- **Links:** [RedOrange Limited](#) || [Shokkhom](#) || [Share-Net International](#)

Kay & Que Limited(IT Unit)

01/2021- 01/2024

Dhaka, Bangladesh

Software Engineer

Tech Stack: Python, OpenCV, Laravel, PHP, JavaScript, MySQL

- Led **end-to-end backend** and **AI project** delivery across web, mobile, and computer vision solutions
- Directed computer vision **model training**, evaluation, and deployment for AI-based applications
- Built secure CMS and backend systems using Laravel, Wordpress, PHP, and MySQL
- Improved performance through query optimization and scalable backend architecture
- Managed deployments, migrations, and third-party API integrations with encrypted data handling
- **Links:** [Kay & Que Limited](#) || [Multimode](#)

SELECTED PROJECTS

- **AI-Powered Credit Scoring System** – Production-ready credit risk engine using financial + psychometric + social data.
- **Psychometric Chatbot** – AI chatbot that interacts with applicants, generating behavior-driven lending scores.
- **Loan Red Flag Analysis** – Fraud/risk detection pipeline leveraging anomaly detection and ML pattern analysis.
- **Social Scoring System** – Alternative data scoring system improving lending inclusivity in emerging markets.
- **Real-Time Surveillance System** – Multi-camera AI surveillance with posture detection, fall detection, and alerts.
- **AI Voice Assistant** – Voice-controlled desktop assistant with GPT integration, TTS, and multilingual automation.
